

Publication of GP Net Earnings

From 1 April 2015, it is a contractual requirement for practices to publish on their practice website the mean earnings (average pay) for all GPs in their practice relating to the previous financial year (i.e. 2016/17).

The average pay for GP's working at St Luke's Surgery during 2016/17 before tax and national insurance was £58,086. This is based upon 1 full time GP partner and 3 part time locum GP's who worked in the practice for more than 6 months.

It should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgement about GP earnings, nor to make any comparison with any other practice
